

Cranium Inspired Game Show

Time: 44~55 minutes

Divide class into teams of 4~5 people

Teams take turns to choose a question from the board.

Each team is shown the task on a slip of paper but only the person who is doing the activity is allowed to see it. A timer is set and all the teams compete to guess what the correct answer is. You can vary the time allowed but I think 1~2 minutes is plenty of time.

Feel free to change the tasks below - mixing nouns and verbs in one category can be a bit difficult (i.e. those in the Draw category).
